To Whom It May Concern,

This is to certify that **Sri Rangasuthan T** has successfully completed an internship with **asap.** under the project titled **"Order in asap using ChatGPT"**, during the period of <u>May to June 2025</u>, for a duration of 2 months.
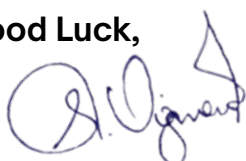

As part of a 3-member team, Sri Rangasuthan T contributed to integrating ChatGPT with a demo e-commerce application, focusing on the following key tasks:

- Enabling users to place orders through ChatGPT
- Checking product availability and directing users to the website
- Handling off-topic or irrelevant queries smoothly
- Training a custom GPT model using the demo app
- Preparing detailed documentation on how to replicate the same for **asap. – our walk-in commerce app**

Sri Rangasuthan T demonstrated strong problem-solving skills and a solid understanding of conversational commerce workflows. Their contribution, especially the integration with the demo e-commerce app and the accompanying documentation, has been very valuable to the asap. team.

We appreciate their dedication and wish them continued success in their future ventures.

Good Luck,

Vigneshwaran Srinevasan
